Dear Microsoft Team

My name is : I would like to take this opportunity to thank you for having us at Microsoft. I know many people out there don't get such an experience. Though it was not my first time there, I still learnt new things that intrigued me and one thing that stood out for me is how small yet big the AI is. That experience really had me fascinated. Furthermore, I would like to appreciate their staff, for taking time out of their Saturday to come spend it with us and I also thank the chefs, for the amazing food and beverages, as I emphasised, it really was a wonderful experience. Lastly, I would also like to appreciate the life talks and motivations. I am someone who ~~go~~ is going through a th: lot right now in my life, but the background stories that was shared, about how many of the staff came from humbling beginnings really, reignited the spark to keep pushing forward, regardless of circumstances, environment or background. And having to know that there are still opportunities for even someone like me, really inspired me to keep working hard and pushing forward until I achieve my goals. Once again, I ~~deally~~ ~~appreciate~~ appreciate the opportunity you as a team granted to us.

Thank you

Sincerely,

Net Buddy, 18, Johannesburg South

Dear Sir / Madam.

I would like to take this opportunity to thank you for inviting me to join you for a visit at Microsoft. At first I thought it would be just a boring experience but when I got there my whole perspective changed. I am so ever grateful to all the speakers who took their personal time to come and tell us about their journey's through life and the experience that Microsoft has to offer. And I am so ever grateful for the delicious food they fed us with, my heart is so full and I shall hope to visit Microsoft again in the future.

Yours Truly

Micros

Dear Career Fair Team

I just want to say thank you for Saturday.

Thank you for inviting us and for sharing your time and stories with us. You made us feel seen and capable. I left the Career Fair feeling inspired and more confident about my future.

I am grateful for the opportunity.

Kind regards,

Net Buddy, 16, Alexandra

I enjoyed myself so much at Microsoft. I learnt that I can have more than one career and I can study anything I want. I learnt that there are many careeres and opportinities in life and I just have to do one at a time theres no pressure. The food was AMAZING. I am greatful for the opportunity Microsoft gave me and it definetly changed my way of thinking.

Hey guys.

I'm not really good at writting letters but here I go. You may or may not remember me but I'm that girl that Mpho said has an influencer face. I really had a blast when I was there. The atmosphere and energy from you guys was so welcoming and beautiful. The food?! Absolutely amazing, I've never eaten THAT much in my entire life. Everything was just amazing. The presentations from you guys were very motivating. I also loved the jokes, alot. Being there taught me alot of things and really made me believe in myself more. I learned a lot and for that thank you so so so much.

Loads of Love ♥

♥

I am

I had a great experience at Microsoft. I learn't that I have to inspire not expire. It was eye-opening because I didn't know which career path to take, but now I am motivated. When I was told it would be about AI I thought it was not for me, but the was also a lesson I learnt at microsoft, that the scary opportunity is often the right one. In the next coming years, I hope to enter those premises not as a visitor, but as someone who is going to be a game changer.

Dear Microsoft

I would like to thank you for inviting us into your place of work and educating us about the many career fields that are available within a business. Now that I am more aware, I know that I do not have to limit myself. Thank you for reminding me that its okay to not know what you want and that failing and making mistakes are just apart of growth we just have to get up, dust ourselves and remember why we started. Thank you for hosting such an amazing day for us. Thank you for your time and effort, it did not go to waste. And most of all thank you for the delicious food. Bless your hearts.

Thank you

Dear: Microsoft Team

Thank you for giving us the priviledge to be a part of your program on Saturday Morning.

We really appreciate being a part of your teams, and I am grateful For the bus transport, for the opportunity to come and experience diffrent career paths firsthand. It was an eye-opening experience that taught me so much. One of the biggest lessons I learned is that, it is okay to make a diffrent career choice, even after experiencing a career that that i have always thought i would like. that lesson alone has given me so much clarity and confidence about my future.

Thank you as well For the delicious food and For the warm welcome you gave us. you made us feel valued and inspired. I appreciate everything you do for us, and we look forward to seeing you again next year ♡.

With sincere gratitude

To Our Beloved Microsoft Company.

- The experience in your centre was enjoyable and very optimistic. I really had fun and I learnt a lot with you guys. Coming to your centre influenced the way I viewed technology. I had a sudden change of how useful AI is and how it can be used to create and build according to the need of humans. As we all know in later we are going to be in need of technical skills; we might as well start embracing AI now.

The experience was a moment filled with enthusiasm. I hope you get motivated to inspire more learners in STEM. I do believe I benefited a lot.

Thank you
