

A NOTE OF THANKS

You powered a new beginning.

You brought our Cape Town LaunchPad back to life and our 45 Net Buddies are again preparing to succeed in school, work, and life. The brand-new laptops you provided help them answer questions, build connections, complete lessons, prepare for tests, research careers, practice teamwork, and so much more! And — we're growing again!

Every session a teen logs in, every question they research, every mentor they meet on these screens — that is your generosity at work.

Thank YOU for giving our teens **a second chance** and showing them how leaders step up and create solutions.

With gratitude,
